REVISED
(First page on 1/13/55 revised as suggested by Seeley's office)

CONFIDENTIAL

OFFICIAL BUSINESS - INFORMAL

Letter No. 161

Dear Mr. Pearcy:

FRENCH GUIANA BOUNDARY MAP

Reference is made to the portion of your France-L-156 concerning the French Guiana boundary. It is understandable here that the French should be reluctant to release their highly classified report on the French Guiana boundary. Although the report would undoubtedly be of value and should be procured whenever it becomes available, we shall be grateful, if to meet the present requirement, you can get a map marked with the French interpretation of the boundary.

Such a map should be fairly large scale in order to show some details of the disputed areas. It would be most desirable if the location of the French interpreted boundary is shown in conjunction with any variations which are proposed by Brazil or Surinam. The immediate use of the information will be for the revision of Map No. 10169, "Status of Latin American Boundaries", at a slightly larger scale than the present edition. Precise information, however, will be useful for such purposes as revision of World Aeronautical Charts and of other maps on which more details are required. Any classification or restriction that the French may wish to place on the maps furnished will be respected, but we do need unclassified information indicating the precise location of the boundary. Our requirements are for cartographic purposes only and involve no political implications whatsoever.

It is assumed that French maps of French Guiana will be available to you for this delimation, but, if not, the enclosed three sheets of the World Aeronautical Chart covering the area may be used. Map No. 10169 is also enclosed for your information.

RAILROAD

Mr. G. Etzel Pearcy,
Geographic Attaché,
American Embassy,
Paris.

RAILROAD PROFILES

In response to your request in France-L-110, AMS ordered samples of U. S. railroad profiles. As soon as the profiles are received here, we shall forward them on to you.

Sincerely yours,

Arthur L. Burt
Special Assistant, Office of
Libraries and Intelligence-Acquisition

Enclosures:

1. Map No. 10169 (CONFIDENTIAL), in 2 copies.
2. 3 WAC charts.
